

DATA SHEET

Bottle Rolling Machine

75-B0011/A with 3 test bottles 75-B0011/A1

General description

Used for the determination of the affinity between aggregate and bitumen, expressed by visual registration of the degree coverage on uncompacted bitumen-coated mineral aggregate particles after influence of mechanical aggregate particles after influence of mechanical stirring action in the presence of water.

Standards

- EN 12697-11

Specifications

Capacity: three bottles 75-B0011/A1

Rotating speed: adjustable up to 80 r.p.m.

Test bottles 75-B0011/A1 with Glass rod 75-B0075/A2

DATA SHEET

Products

75-B0011/A

Bottle rolling machine, Adjustable speed up to 60 rpm. 230V/50-60Hz/1ph

Accessories and consumables

75-B0011/A1

Test bottle, Pyrex glass, 81 mm dia, 175 mm high, 30 mm neck dia. with screw cap. Capacity 500 ml.

75-B0011/A2

Glass rod 6 mm dia, one end fitted with 30 mm long rubber tube
